M. J. H. CARTIER DE VILLEMS, the foremost editor of France, and for a long time Director of the *Figaro*, is dead.

A DEPUTY United States Marshal arrested three men for robbing a stage in Texas the other day. Now look out for a States' Right howl.

JOHN B. GIBSON, of Cincinnati, proprietor of the Gibson House, is likely to pass through the mill which Simon Cameron knows so much about. Suit has been commenced against him by a Miss Bruce for breach of promise and she puts the damages at \$50,000.

THE iron men of the country are somewhat worked up over Vanderbilt's last exploit. He bought a large amount of steel rails in England recently, and says that he can afford to give \$11 more per ton for them than he can for the American rails.

THE situation in Egypt remains unchanged. The Khedive has sent a large sum of money to the Sublime Porte to hush the Sultan's mouth. He is, however, having all the taxes collected and has ordered a levy of soldiers. He evidently means business.

WE are glad to notice that every prominent journal in the South is speaking out in meeting about the cowardly practice of carrying concealed weapons. The pulp, the press and the good citizens everywhere, combining, may mould public opinion against it which is the only way to reach it.

THE details of a horrible massacre comes to us from Russia. In the Kieff Prison a large number of Nihilist prisoners were confined. To effect their escape they determined to dig a tunnel under the wall. Notice was given to the authorities by one of the conspirators, and, without making any effort to prevent them, they stationed soldiers outside, and as soon as those behind, hearing the firing, were frightened, and stopped coming out, when the Director sent a file of soldiers in the prison, and thus, placed between cross fires, they were all killed. The Director was decorated with an order of merit.

XLVI CONGRESS.

WASHINGTON, April 16.
The Senate resumed the consideration of the army bill and Mr. Beck continued his remarks. He said the Democrats were determined, on their first access to power, to repeal the laws passed in time of war unsuitable to the time of peace and forerunning dangerous precedents which would become fundamental principles of our Government if left alone. He quoted freely from historical authorities to show the pernicious results of military interference with civil functions, and to refute the assertion of Mr. Hoar, that money had not been withheld by the House of Commons to force the King's consent to legislation.

The Senate Committee on Privileges and Elections to-day commenced the hearing of argument in the Spofford-Kellogg case upon the question whether or not the action of the Senate hitherto has made controversy *res adjudicata*. Ex-Congressman Shellabarger began an argument in maintenance of the proposition, and will be further heard to-morrow.

Mr. Beck continued his remarks upon the army bill. He said, rather than have the army used as it had been, and as it might be again, he would favor its abolition and establish a militia.

Mr. Dawes followed in opposition to the pending measures. During his speech he yielded to Mr. Butler, of South Carolina, who stated that his colleague, Wade Hampton, was present and ready to take his seat. Mr. Hampton, on crutches, was led forward by Mr. Butler and sworn in by the President *pro tem*, Mr. Thurman, taking the modified oath.

Under a call of the committee this morning, Mr. Stephens, of Georgia, Chairman of the Committee on Coinage, Weights and Measures, reported a bill for the interchange of subsidiary coin for legal tender money in sums of 10 dollars and multiples thereof, making such coin a legal tender in all sums not exceeding 20 dollars. The report of the committee states that the bill is based upon the petition referred to the committee.

Mr. Conger, of Michigan, raised the point of order that no bill on that subject had been referred to the committee, and that therefore the committee had no right to make the report.

The House, in Committee of the Whole, resumed consideration of the Legislative Appropriation bill. After discussing the amendment to repeal, after March, 1880, the acts creating the Southern Claims Commission, and to transfer to a Court of Claims all claims pending before the Commission, which was rejected, the committee disposed of all the bill, except the portions specially designed for general discussion, being the provisions in respect to the mode of selecting grand and petit jurors, repealing the jurors' test oath, and also in respect to Supervisors of Elections and Deputy Marshals.

Mr. Lewis, of Alabama, made a legal argument against the election laws, and denied that the South was "solid" for any illegal or unconstitutional purpose out of prejudice to the North. Mr. Sanford, of Alabama, also argued upon the necessity and justice of repealing the jurors' test oath and of modifying power of Supervisors of Elections.

WASHINGTON.

WASHINGTON, D. C., April 16.—Ex-Representative Edwin W. Kightly, of Michigan, was to-day nominated for the Third Auditorship of the Treasury.

The Secretary of the Treasury in a circular issued to-day, offers at one-half of one per cent. above par and accrued interest to date of the subscription \$150,000,000 of the four per cent. funded loan of the United States, the proceeds to be applied to the redemption of the United States ten-forty bonds. In addition to this amount \$44,566,300 of these bonds, being the residue of the sum needed to redeem the ten-forty bonds, will be reserved for the commission of the ten dollar refunding certificates.

MARYLAND.

BALTIMORE, April 16.—Bishop R. E. Ames, of the Methodist Episcopal Church is ill at his residence in this city. For several days his death has been looked for, but this morning his physician pronounced him better.

A shooting affray occurred this morning resulting in the death of one of the combatants and mortal wounding of the other. Last fall a shooting occurred between Denwood B. Hinds and a young man named James, because of the alleged seduction of Miss Lizzie James, a sister of James, by Hinds. The lady died some time since. This morning Mr. James, the father, met Hinds on Calhoun street, when both drew revolvers and commenced firing. Several shots were exchanged, resulting in the death of James and mortal wounding of Hinds.

MICHIGAN.

DETROIT, April 16.—The official returns of the recent State elections are incomplete, but are sufficient to make certain a Republican majority of about four thousand. Of the total vote thus far received, Campbell, Republican candidate for Justice of the Supreme Court, received 432,000, and Shipman, coalition candidate, 128,000.

FOREIGN NEWS.

ST. PETERSBURG, April 16.—The name of the would-be assassin of the Czar is Alexander Solovieff, he is a schoolmaster of Torguep in the government of Pleskor. He will be tried by the highest criminal tribunal. Prosecutor-General, Senator Leontieff, who is charged with the preliminary inquiry, has commenced his labors.

PARIS, April 16.—No progress has yet been made in solving the Egyptian difficulty. The French and English Cabinets have taken no determination, and have, therefore, made no proposals to the Porte. It is not believed that the deposition of the Khedive will be attempted.

Snakes as Life Destroyers.
The loss of life in India due to the ravages of venomous snakes is almost incredible. Yet the disease which is as wily and deadly as the deadliest India reptile, is winding its coil around thousands of people while the victims are unconscious of its presence. It has long been a hobby with incompetent physicians to assume that consumption is incurable after the formation of tubercles has begun; and in every case they fail to effect a cure, of course tubercles had begun to form and they were incurable. The records of medical science disprove any such theory. On the contrary, in cases of lung disease which have been cured and the patients lived forty and fifty years in robust health, post-mortem examinations showed large clasticities (scars) where the tubercles had been formed and removed. The tubercles are removed by absorption into the blood. An efficient alternative, Dr. Pierce's Golden Medical Discovery, must be used to cleanse the blood of the scrofulous impurities. For tubercular consumption is only a form of scrofulous disease. Golden Medical Discovery is a sovereign remedy for all forms of scrofulous disease, or king's-evil, such as tumors, white swellings, fever sores, scrofulous sore eyes, as well as for other blood and skin diseases.

The Richmond *Whig*, a staunch old Democratic paper has this to say about Mr. Tilden:

We shall hear much in the next twelve months of the old gentleman of Gramercy Park. The bureau will soon set to work, and country papers with patent outsiders will have no longer any use for editors. Mysterious individuals will be flitting about the country big with the New York idea and equally ready to treat or to promise away a Cabinet office. All the parts of an ingenious and a well-oiled political machine will be set in motion, and all the wire-workers in the country will be enlisted to create a public sentiment in favor of the old ticket. Mr. Tilden's wrongs and his money will be pleaded by one class of advocates; another will urge his money and his wrongs. But most potent of all advocacy will be the old plea that New York is essential to a Democratic victory and that nobody but Mr. Tilden can carry New York.

Will all this win? We doubt it. The conditions are largely changed since 1876. Then the work was simply to establish the availability of the candidate. Now there is not only a strong sentiment to overcome—a sentiment against Mr. Tilden, against the spirit of the methods and the tone of his surroundings, against further submission to the dictation of New York—but a well-founded distrust of his loyalty to Democracy, and a very natural reluctance to place the fortunes of the party in the hands of one who, when elected, could not reach the Presidency. And besides all this, there is an earnest desire on the part of the Democracy to call to the post of honor some one of those men who in the thick of battle have shown the wisdom and courage, the devotion to the people, which on the part of Mr. Tilden have only been promised. All these currents of opinion set strongly against the realization of Mr. Tilden's hopes. But the field is a large one, the fight afar off—who can foretell the result? It is not too soon, however, to express our opinion that if Mr. Tilden wins, the Democratic party loses.
